

# (DG) Convening 2023

Directors Gathering is excited to host our second annual Convening, exploring:

## *The Universality of Art-Making*

*An exploration of how theatre directors have the power to enrich their humanity, artistry, and processes through exposure to varied expressions of artistic practice*

### The Convening will:

- Bring a network of directors and collaborators together in shared virtual spaces
- Encourage conversations about how the industry can shift through peer advocacy
- Establish new communication platforms for our network - resource sharing through the (DG) Circle and topical conversations in Mighty Networks
- Create a welcoming space for theater directors to convene with their community of peers and colleagues that have a vested interest in the work of directors.

(DG) Team - Sisi Wright,  
Brey Ann Barrett, and Jill Harrison

**Directors Gathering (DG) is building a community for theatre directors everywhere.**
